

# Recommendation: Carlos de Cordoue

As CEO of Credit Agricole Serbia (2016-2020), I had the pleasure of working with Ivana and had several opportunities to visit her and her team in Leskovac.

Ivana was leading one of our most successful branch and I really appreciated a lot the positive energy, the entrepreneur spirit, the professional behavior she was bringing every day at our bank. She is hardworking, result oriented, and always willing to go extra mile to provide the best service to clients.

I was impressed by her high motivation to increase her knowledges. I personally encouraged her to start a MBA program and she did it out of working time.

I believe Ivana has a great potential to develop her carrier in the banking industry but her management skills San match in other sectors as well .
